

# CAFO Ordinance Committee

## | MINUTES

---

Meeting date | time 3.24.21 | 7:00 | Meeting location via Zoom

Meeting called by	Andrew	Committee Attendees
Type of meeting	Informational	Andrew Marshal
Facilitator	Andrew	Jeff Lade
Note taker	Doug	Howard Paul
Timekeeper	Name	Norman Peterson
		Doug Wickstrom
		Helen Sullinger

## AGENDA TOPICS

---

Time allotted | 1hr | Agenda topic Topic | Presenter All

Discussion Conversation

Dr. Husset presented on health issues associated with CAFOs

Main Points from the conversation

1. Nitrates in drinking water and their effects on the population
2. Airborne issues – e coli and similar
3. Merca – ie super bugs
4. Antibiotic resistant bacteria
5. Setting baselines for items 1-4 (This needs to be done before livestock of CAFO are in place)
6. Setting monitoring conditions for items 1-4
7. Emergency Response plans
8. Dispel two major myths
  - a. No good science re CAFOs and risk to human health – **NO**-thousands of articles showing major health issues
  - b. Can rely on DNR and EPA. **NO**- Neither agency has expertise or interest in human health issues. They address water and environment.

9.
