**General Discussion:** The County comprehensive planning committee is working with Northwest Regional Planning to send out information regarding the future land use map to each municipality. This should give directions in how each town can update their land use map if they choose to do so. This will follow Wisconsin Statute 66.1001(4). The towns will have 90 days for this process. If the towns do not complete the future land use map update the county will use the town’s outdated future land use maps in each town’s comprehensive plan.

It is the consensus of the town’s comprehensive planning committee to work on the future land use map for the town in order to submit an updated map to the county.
