The "Bank Fee" charged by the lending bank (the "Bank") for making a refund anticipation loan ("RAL") is variable and is set forth on the chart below. A separate variable fee may be charged by H&R Block for system administration or electronic filing. To obtain a RAL, your federal return must be electronically filed. H&R Block's fee for electronic filing or system administration is \$10.00, if H&R Block prepares your tax return. If your return is prepared by someone other than H&R Block, H&R Block's fee is \$100.00 for your federal return. If you elect to electronically file your state return, an additional fee may apply. The system administration or electronic filing fee and Bank Fee will be withheld from the loan amount. You are responsible for these fees and the repayment of the loan if your tax refund is not sufficient to pay off the loan.

You can avoid the Bank Fee by filing your tax return electronically without obtaining a RAL in which case you can expect to receive your tax refund by mail within 3 weeks or by direct deposit within an average of about 12 days. However, tax preparation fees will have to be paid up front. If you are approved by the Bank for a Classic RAL, the proceeds of the loan will be made available to you at the H&R Block office where your return is prepared in as little as 1 day after H&R Block electronically files your return. If you are approved for Instant RAL, proceeds usually will be available within 1 hour. Approval is based on credit worthiness and is more limited for Instant RAL than the Classic RAL. Since all fees are withheld from the refund amount, you will not need to pay anything out of pocket if you obtain a RAL.

In the event your RAL is denied after you have directed your refund to be electronically deposited by the IRS to an account established for you at the Bank, you will be obligated to pay the Bank a \$24.95 refund account fee for the opening and closing of a deposit account and the processing of your refund. In such event, a check from the Bank payable to you for your refund amount, less tax preparation fees, the refund account fee and any other fees, will be available to you through your H&R Block office in approximately 12 days.

(2) A turnaround space free of trees and other obstructions may be provided if it has the dimensions of not less than 60 feet by 50 feet, (or)

(3) A turnout may be provided with the following dimensions: the length shall be a minimum of 30 feet. The width at the entrance shall also be a minimum of 30 feet. The turnout may be trapezoidal in shape, thereby tapering down to a minimum of 20 feet at the rear. In addition, a minimum of 40 feet of driveway must be provided between the building and the turnout to allow enough room to back a 30-foot long emergency vehicle into the turnout.

D. A representative of the Trade Lake Town Board shall determine the dimensions of any culvert to be installed as part of the required driveway construction in order to provide proper drainage. If a culvert is required the Town of Trade Lake will provide a standard 12" 32' culvert and one load of gravel. If a larger culvert is required permit holder will be required to reimburse the Town of Trade Lake the difference in cost.

Section VI. – Application/Permit Provisions

A. The Town shall approve a form for application for the Town Driveway Permit which shall be available from the Town clerk.

B. The applicant for a Town Driveway Permit shall submit to the town clerk a completed application with the appropriate fee and with the following attachments.

1. Sketch Map. A rough sketch showing the conceptual idea of the project and approximate location and dimensions. The sketch map may be submitted to the town board prior to the preparation or submission of the other supporting documents in order for the town board to provide initial comments and review of the proposal. However, formal approval for a Town Driveway Permit will not be granted without the submission of complete supporting documents.

2. Plat Map. A plat map indication the location and dimensions of the desired driveway as well as the parcels immediately adjacent to the applicants' property. C. Procedures for the evaluation of the Town Driveway Permit by the Town board, including any required site inspection of the proposed driveway, public hearing, and town board meetings, are as follows:

D The Town board shall approve or deny any Town Driveway Permit application and may as a condition of issuance, place specific restrictions or conditions on the permit, which shall require compliance by the applicant/permittee. Reasons for denying a Town Driveway Permit Application may include, but are not limited to:

1. The inconsistency or nonconformance of the proposed driveway with this ordinance, with any existing town comprehensive plan, master plan, or land use plan, with town ordinances, rules, regulations or plans. Or any applicable County, State, or Federal laws, ordinances, rules, regulations, or plans.

2. The driveway, bridge or culvert or any combination, when constructed, rerouted, reconstructed, or altered as proposed would be dangerous or unsafe for use by persons in the town.

3. The application as filed and submitted is incomplete or contains false material as determined by the town board.

4. Alternative driveway locations, bridges or culverts will be safer for persons by motor vehicle ingressing or egressing on the driveway and access point.

5. Alternative driveway locations or alternative highway access locations will preserve or better protect more prime or productive agricultural or forestry land in the town.

6. Alternative driveway locations will have less negative land use impact on historically, archaeologically, community, public, or culturally significant or environmentally sensitive parcels of land or facilities in the Town, including land adjacent to or near the proposed driveway.

7. The driveway will not provide timely and adequate ingress and egress for emergency vehicles.
