

**Ordinance to Extend Town Officer Terms In Response to Election Law Changes**

No. 2013-01

Whereas, the term of elected town officers (other than elected assessors) have previously begun on the 2nd Tuesday in April;

Whereas town officers (other than assessors) elected in April 2012 and thereafter will now have their terms of office commence on the 3rd Tuesday in April due to recent state election law changes;

Whereas this law change results in a week long "gap" between the end of the current terms of office for those town officers elected in either 2010 or 2011 and the start of the new terms of office for those officers elected in April 2012 or April 2013;

Whereas, 2011 Wis. Act 115 provides that a town board may enact an ordinance providing that the terms of any elective officers in the town who were elected or appointed to serve for terms expiring on the 2nd Tuesday in April 2012 or 2013 may be extended to the 3rd Tuesday in April in the same year in which the terms would otherwise have expired;

Therefore, be it hereby ordained by the Town Board of the Town of Tradelake, Burnett County, that the terms of elected town officers which shall expire after 11:59 p.m. on the 2nd Monday of April in either April 2012 or April 2013 shall be extended until the 3rd Tuesday of April in the same year in which the terms would otherwise have expired.

This ordinance shall be effective upon publication or posting by the town clerk as required, pursuant to s. 60.80, Wis. Stat.

Adopted this 14<sup>th</sup> day of March 2013.

By the Town Board of the Town of Tradelake, Burnett County, Wisconsin:

Jane Munn  
Town Chairperson

Attest:  
Deborah L. Christian Town Clerk

## Asphalt Road Maintenance

**March 5, 2013 Barneveld**

**March 7, 2013 New London**

**March 6, 2013 Pewaukee**

**March 8, 2013 Eau Claire**

This workshop will help you choose maintenance techniques that will get the most out of your roads. You will learn how to:

- Evaluate asphalt pavement condition
- Apply the right maintenance and rehabilitation methods
- Comply with regulatory requirements

### Key Workshop Topics

- Asphalt road basics
- Asphalt pavement distresses and PASER ratings
- DNR General Permit for road maintenance and reconstruction projects
- Crack sealing, patching, and surface treatments
- Surface recycling and full depth reclamation

### Plan to Attend

Attend if you are responsible for maintaining local asphalt streets, roads, and highways. This workshop will benefit:

- Elected officials
- Engineers
- Superintendents
- Foremen
- Equipment operators
- Others responsible for asphalt road maintenance

### Your Instructors

**Dr. Tom Nelson, PE**, a professor emeritus at UW-Platteville, has more than 35 years of experience in road design, construction, and maintenance. He has taught at the Army Engineer School, Norwich University in Vermont, and in National Highway Institute courses. Dr. Nelson is active nationally in research and teaching.

**Ben Jordan, PE**, is a program director with the Wisconsin Transportation Information Center. He has more than 25 years of experience in civil engineering and public works. He has worked as a city engineer and director of public works and has designed and managed a variety of street and highway construction and maintenance projects.

### Workshop Schedule

**7:30 Check-In**

**8:00 Introduction**

**8:15 The Basics of a Good Road**

- Road shape
- Road materials
- Addressing common problems
- Importance of drainage
- Spring maintenance activities

*Dr. Tom Nelson, PE*

**9:15 Break**

**9:30 Evaluating Asphalt Pavement Using PASER**

- Review of asphalt pavement distresses
- PASER Rating System
- Using PASER and WISLR to manage pavements

*Ben Jordan, PE*

**10:30 Break**

**10:45 The New Waterway and Wetland General Permit**

- Eligibility standards for highway reconstruction and maintenance projects
- Permitting process
- Applying for coverage of a project under the general permit
- Frequently asked questions and general permit contacts

*Wisconsin DNR Staff*

**11:45 Lunch**

**12:45 Asphalt Pavement Maintenance Done Right**

- Patching
- Crack sealing

*Dr. Tom Nelson, PE*

**1:30 Effective Asphalt Surface Treatments**

- Fog seal
- Chip seal
- Slurry seal and micro-surfacing

*Ben Jordan, PE*

**2:15 Pavement Rehabilitation and Recycling**

- Cold in-place and hot in-place recycling
- Pulverizing and reclaiming

*Dr. Tom Nelson, PE*

**3:00 Final Adjournment**
